## GRAMMAR

## TALKING ABOUT PROJECTS

| ASKING ABOUT PROJECTS                 | SAYING HOW IT WENT                                                                                                          |
|---------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| How did it go, generally?             | <i>It went well. / Not very well.<br/>It was OK. / There were one or two problems.</i>                                      |
| What went well, in particular?        | <i>We met each (project) deadline.</i>                                                                                      |
| What didn't go well?                  | <i>We had a problem with [the suppliers / our client].<br/>There was a problem with [our materials / some of the team].</i> |
| What was your experience?             | <i>The [project / teamwork] was [good / great].<br/>There were one or two problems with [the clients / the designs].</i>    |
| What did you do?                      | <i>We changed to a different factory.<br/>I started to ask more questions.</i>                                              |
| What happened? / Why did this happen? | <i>We didn't communicate the changes well.<br/>We made some mistakes in planning.</i>                                       |
| What was the problem?                 | <i>The supplier didn't explain the changes.<br/>We didn't meet the deadline.</i>                                            |
| What do we need to change?            | <i>Next time ...<br/>We need to improve our design.<br/>I want to make the process clearer.</i>                             |
